

21 November 2023

Dear 2023 Productronica Visitors,

It was a pleasure to have you come & visit with us at Productronica 2023 in Munich. Besides myself, representing ITC Intercircuit were Mr. Richard Härtl (Vice President), Mr. Hubertus Hein (Master Design Engineer), Mr. Christian List (Plant Manager, Burkhardtsdorf) and Mr. Mario Horn (Production Manager). Also in our booth was Mr. Gaetano Dall'Ora – representing Piergiacomini, ZMetrix & Z-zero. In total 42,000 visitors from 94 countries came to Munich – Thank you for your participation...

Back due to popular demand, we once again displayed our CF 200 via plugging machine. No other via fill manufacturer comes close to matching the benefits of this truly extraordinary piece of technology.

Those that attended the show were amazed by all the additional features the CF 200 has to offer. And because ITC Intercircuit Production has Europe's largest via fill center, all customers who purchase our equipment receive 20 + years' experience in how to successfully fill through & blind holes.

For those of you who were unable to attend Productronica this year – you can come by any time to visit with us in Munich or Burkhardtsdorf. And remember we will be in Anaheim, CA. next April for the 2024 IPC APEX EXPO Show, in booth # **4442**...

May you all have a wonderful Christmas & New Year's Holiday!

Best Wishes...

Erwin Härtl
